Dear Wendy,

I am reaching out to express my interest in the open position on the Civil Service Commission. My experience in overseeing a sworn merit system and having several years' experience in human resources management, I would be a viable candidate for the position.

During my time at Salt Lake County, I successfully led the Deputy Sheriff Merit Commission for over 13 years, writing and managing the testing process and overseeing the grievance process for five hundred sworn officers. In addition, I have worked several years in human resources management in a public agency.

Please let me know if you require any additional information. I have also enclosed my vitae of experience and skills.

Best regards,
Judy
